

BRAND IDENTITY SYSTEM

Brand Guideline.

Visual Language & Design System for Tyreplex

OUR VISION

Digitize & Empower Tyre Retail.

We simplify and streamline tyre retail operations, stock management, and B2B pricing for dealers and distributors through intelligent, mobile-first digital tools.

Trust

Efficiency

Clarity

To bridge the gap between **traditional tyre retailers** and **modern digital supply chains**, empowering businesses with intelligent mobile-first tools that transform manual shop management into a **streamlined digital experience**.

CORE TAGLINE

Smart Audit. Live Bids. Best Deal.

01

Smart Audit

High-speed mobile stocktakes with offline sync, barcode scanning, and real-time variance reconciliation.

02

Live Bids

Active B2B quote bidding with countdown timers, enabling local distributors to compete in real-time.

03

Best Deal

Automated profit margin estimation and intelligent reordering that maximizes dealer earnings.

Voice Archetypes

Our brand personality is a structured blend of three core archetypes that guide all creative expression.

50%

The Partner

Collaborative · Helpful · Localized

Relatable, supportive, and down-to-earth. Speaks in a clear, simple voice that respects the dealer's daily workflow.

30%

The Organizer

Systematic · Precise · Reliable

Clean, structured, and data-focused. Organizes complex tyre specs and billing into high-density, readable layouts.

20%

The Innovator

Tech-forward · Proactive · Efficient

Pioneering and active. Showcases modern features like OCR scanning, instant bidding, and automated par levels.

COLOR SYSTEM

Primary Brand Color

Our single primary brand color anchors every Tyreplex interface. It drives action, urgency, and brand recognition across all platforms.

Tyreplex Red

#ED1D24

RGB 237, 29, 36 | CMYK 0, 98, 95, 7

Functional Accents

Status-driven colors for immediate recognition in fast-paced retail environments.

Success Green

#00B633

Verified stock counts, positive variances, payment confirmations, and completion states.

Bidding Orange

#FF6B00

Active countdown timers, pending bids, surplus warnings, and quantity badges.

Info Blue

#0066FF

Technical SKU labels, BNPL credit information, and interactive hyperlinks.

Neutral Palette

A carefully curated grayscale palette that provides depth, hierarchy, and readability across light and dark interface contexts.

TYPOGRAPHY

Poppins

Poppins is our one and only typeface. It reflects the brand's modern, geometric, and dynamic identity — used everywhere from headlines to data tables.

POPPINS — WEIGHT SCALE

ExtraBold Headline	800 · 20–24px
Bold Metrics & Totals	700 · 18–22px
SemiBold Subhead	600 · 16–18px
Medium Body Copy	500 · 14–15px
Regular Descriptions & Labels	400 · 12–13px

POPPINS IN CONTEXT

₹ 75,000.00	700 · Metric totals
185/65 R15 88H	500 · Tyre specs
Last audited: 2 hours ago	400 · Timestamps

Mobile Layout System

Viewport

412px

Standard mobile grid width with 16px outer margins on both sides.

Card Radius

16px

Standard content cards use 12–16px radii. Badges use 4px. Bottom sheets use 24px top corners.

Touch Target

44px

Minimum touch target for quantity steppers and action buttons in warehouse conditions.

Spacing

8px

Base spacing unit. Card gaps use 8–12px. Section gaps use 16–24px multiples.

Iconography

Clean, minimal line-based icons with 2px stroke weight and rounded joints. Optimized for 24×24px grid.

Photography & Media

- 1 Clean White Background.** Tyre product shots must be placed against a solid white or light grey background with a soft shadow.
- 2 Tread Visibility.** Sidewall size markings (section width, aspect ratio) must be clearly legible in all product photos.
- 3 Condition Segmentation.** Visually differentiate New, Used, and Retread tyre images with distinct badge overlays.

Image Upload Containers

Dashed red border (#ED1D24), light pink background (#FCF2F2), with centered camera icon placeholder.

Invoice OCR Scans

Camera viewfinder overlay with auto-crop guidelines and edge-detection highlighting for invoice boundaries.

App Screenshots

Captured at 412px width on standard Android devices. Dark status bar, consistent system font rendering.
