Visual Language & Design Guidelines for Tyreplex

OUR VISION

Digitize & Empower Tyre Retail

through Trust, Efficiency, and Data-driven Clarity.

THE BRAND ESSENCE OF TYREPLEX

To bridge the gap between traditional tyre retailers and modern digital supply chains, empowering businesses with intelligent mobile-first tools that transform manual shop management into a streamlined digital experience.

Core Tagline

Smart Audit. Live Bids. Best Deal.

1. Smart Audit

High-speed mobile stocktakes and real-time variance reconciliations.

2. Live Bids

Active B2B quote request bidding portal for local distributors.

3. Best Deal

Automated reordering system that optimizes dealer margins.

Voice Archetypes

Archetype	Weight	Core Description	Tone of Voice Guidelines
The Partner	50%	Collaborative, Helpful, Localized	Relatable, supportive, down-to-earth. Respectful of the dealer's daily operations.
The Organizer	30%	Systematic, Precise, Reliable	Clean, structured, detailed. Focuses on data points and clear parameter guidelines.
The Innovator	20%	Tech-forward, Proactive, Efficient	Pioneering and active. Introduces modern solutions like OCR scans and timer countdowns.

Primary & Brand Colors

Tyreplex Red

#ED1D24

Primary brand accent. Used for core CTAs, high-priority buttons, shortage indicators, and critical alerts.

Tyreplex Dark

#121726

Core structural background. Used for navigation bars, active controls, titles, and dark interface panels.

Functional Accents

Success Green

#00B633

Verified audits, positive variances, successful payments, and confirmation labels.

Bidding Orange

#FF6B00

Pending bids, active timers, warning alerts, and quantity badges.

Info Blue

#0066FF

Technical category SKU labels, BNPL terms, and info popups.

Primary & Secondary Fonts

Primary Font: Poppins

Reflects the brand's modern, dynamic identity. Used for headings, titles, and CTAs.

Poppins Bold

Poppins SemiBold

Poppins Regular

Data Font: Inter / SF Pro

Ensures high-density readability for tyre section codes, prices, and timestamps.

Inter Bold

Inter SemiBold

Inter Regular

Type Hierarchy & Scale

Headline Bold (20px)

A Proper Headline is Set in Bold

Subhead SemiBold
(16px)

Subheadlines should be in weight slightly less heavier

Body Regular (13px)

Body copy is set in Inter or SF Pro Regular. Expected expected parameters...

Minimal Line Icons

Tyre

Rupee

Package / SKU

Check / Confirm

Clock / Timer

Camera / OCR

Logo Clear Space

The image shows the TyrePlex logo centered within a light blue rounded rectangle. The logo itself consists of the word "Tyre" in black with three horizontal lines above the 'T', followed by "Plex" in red. A red horizontal line underlines the 'e' in "Tyre" and extends to the start of the 'P' in "Plex".

Clear Space Rule (50%X)

A defined clear space equal to 50% of the logo mark width must surround the logo on all sides to ensure maximum visibility and visual impact.

Do not overlap the logo with other graphical backgrounds, text columns, or border frames.

Mobile Layout Principles

1. Width & Margin

Designed exclusively for mobile screen viewports (401px - 412px width) with an outer padding margin of exactly 16px.

2. Steppers & Gaps

Card gaps are set between 8px and 12px. Manual increment steppers are scaled to 40px minimum click boxes to facilitate easy counting.

3. Bottom Sheet

Bottom drawers slide up with a 24px top-left and top-right corner radius, with a dark dim overlay behind them.

Smart Inventory. Trusted Bidding.
