

BRAND BIBLE

Tyreplex Brand Identity

Design System & Brand Guidelines

1. Brand Vision & Purpose

Tyreplex is the technology platform driving modern tyre retail and B2B distributions. We believe in providing tyre dealers, store managers, and relationship managers with intuitive, highly visual digital tools that simplify stocktakes, pricing requests, and inventory audits.

Digitize & Empower Tyre Retail

We make tyre operations clean, transparent, and data-driven by replacing paper receipts and manual calculations with modern inventory, B2B bidding, and offline stock audits.

Core Voice Archetypes

Archetype	Weight	Attributes	Meaning for Creative Expression
The Partner	50%	Collaborative, Helpful, Localized	Relatable, supportive, down-to-earth. Speaks simply and clearly about daily operations.
The Organizer	30%	Systematic, Precise, Reliable	Clean, structured, detailed. Standardizes specifications (DOT, section widths) into simple layouts.
The Innovator	20%	Tech-forward, Proactive, Efficient	Pioneering and active. Introduces OCR invoice scanning and live quote countdowns to speed up operations.

2. Color Palette & Functional Swatches

Our colors represent action, success, and alerts. They are optimized for immediate recognition on mobile screens inside high-density warehouses and retail shops.

Primary Colors

**Tyreplex Red**

#ED1D24

Primary logo, primary buttons, shortage counts

**Tyreplex Dark**

#121726

Main header text, active tabs, dark selectors

Functional & Neutral Swatches

**Success Green**

#00B633

Verified stock counts, positive variance, payments

**Bidding Orange**

#FF6B00

Live timers, alerts, warning counts, quantities

**Info Blue**

#0066FF

SKU categories, BNPL information panels

**Frost Canvas Backdrop**

#F7FAFA

Backdrop behind cards, screen backgrounds

3. Typography & Hierarchical Scale

Poppins is the primary brand font for Tyreplex. It is paired with Inter or SF Pro for technical statistics, specifications, timestamps, and numbers.

Category	Font Family	Style & Weight	Size (Pixels)	Examples
Main Metrics	Poppins	Bold	20px - 24px	Outstandings (e.g. ₹ 75,000), total items counts
Page Headers	Poppins	SemiBold / Bold	18px	"Stock Take", "Add Tyre", "Quote Details"
Card Titles	Poppins	SemiBold	14px - 15px	Brand names (e.g. CEAT, MRF), category selections
Tyre Specifications	Inter / SF Pro	Regular / Medium	11px - 13px	Tyre sizes (e.g. 165/70/R14), quantity inputs
Status Badges	Inter / SF Pro	SemiBold	8px - 10px	"Last audited: Yesterday", "Shortage"

4. Media & Upload Specifications

Tyre Product Photos

Tyre product photos must highlight tread patterns and sidewall markers clearly, shot against a solid white background with soft dropped shadows.

Image Upload Containers

The upload visual is styled with a dashed red border, a light pink background, and a camera icon placed inside a circular container.
